Organize your fabric sets

Draw a diagonal line (or lines) on the backside of fabrics D and F. Pair them with a fabric E and sew on the lines.

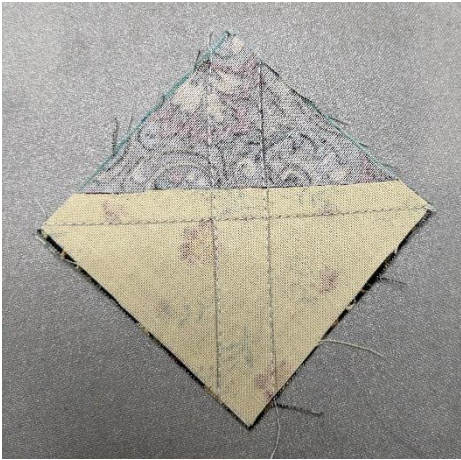

I chain pieced all of my fabric sets at once.

I sewed one side, kept them together and sewed the other side.

Cut apart, press towards fabric E. Trim.

Place one colorway on top of the other colorway with the fabric E's opposite of each other. The seams should nestle together. Draw your lines and stitch. Cut on down the center.

Press your seam open to reduce bulk and trim your dog ears.

Make your center block using fabric C in the center and fabric G in the corners. Press the top and bottom seams out and the middle row towards the center. Press your row seams open. Your block should measure $5 \frac{3}{8}$ ".

Fold your block in half and press. Using that crease, line up your plaid triangle. Stitch with your triangle facing down. It helps control the bias and you can make sure you don't sew over your points. Do the same with the opposite side of your block.

Fold again and sew the remaining sides.

Add the next round of triangles the same way. Trim to 10.5"
