

Bridle Path

October 5, 2024

It's time for sashing! We are making the pieced sashing in 2 color ways.

Cut your strips in the amounts given in your book. You will be making 24 beige sashing units and 76 yellow sashing units.

Sew your strips together in the order given in your pattern. The diagram detailing sewing direction in the pattern is excellent. You want to make sure to sew alternating directions with each strip. If you start at one end for the first seam, sew the next seam starting at the opposite end. That will prevent your strip set from curving or "rainbowing" I sewed my strips together in chunks to make it easier.

First Chunk

Second Chunk

All Together

Cut into strips

Sew a beige piece to each side of the sashing.

Do the same in the yellow colorway
